The industry leading wireless surveillance solution

In a world where being connected is required, having no access to fast reliable internet will hinder your success. When you need internet as the backbone of your security, having no internet is disastrous.

EyeLINK is your solution for your internet connectivity needs.

No Internet, No Problem! EyeLINK is not an internet service, it is a satellite based VPN link back to the EyeMax Data Center.

- Professionally installed at your facility
- No Caps
- Provides a dedicated link to your cameras, without affecting your current network
- **EyeLINK gives you the freedom to view your cameras anywhere on the globe, 24/7/365**

**For more information, call
866-991-3658 or visit us at
